**   return conecta;**
**   }**
**   catch (Exception e) {**
**   System.out.println(e);**
**   return null;**

**   }**
**   }**

}

##

//Test Connection

```java
package br.com.caelum.jdbc;
import java.sql.*;

public class Testa {
public static void main (String []args) {

        Connection conexao = null;
        PreparedStatement pst = null;
        ResultSet rs = null;

        conexao = ConnectionFactory.getConnection();
        System.out.println(conexao);
}
}
```
